

## WCB High Resolution Printing

Selected WCB health and safety publications are now available online in high resolution, print-ready format.

You can select and print the publications you need, in the quantities you want, with the binding you choose. Just pick a document and let your print department or printing company know where to find the file

([http://www.worksafebc.com/publications/high\\_resolution\\_publications/default.asp](http://www.worksafebc.com/publications/high_resolution_publications/default.asp)).

You can then produce as many copies as required, either in colour or black and white.

If you don't do your own printing, click on the link to the BC Printing and Imaging Association ([www.bcpia.org](http://www.bcpia.org)), a non-profit organization who may be able to help you find a local print company. **The WCB does not recommend specific printing companies and cannot guarantee either the quality of their work or a particular price for each product.**

The files on this web page have been prepared specifically for printing and printers, and can take more time to download than regular PDFs. Those who prefer to view and/or download smaller, low resolution files can visit Publications at [www.worksafebc.com](http://www.worksafebc.com) and select the same publication.

More health and safety publications will be available in high resolution in the coming months. We welcome your feedback and suggestions. Send us an email ([smallbiz@wcb.bc.ca](mailto:smallbiz@wcb.bc.ca)) and let us know if there are any health and safety publications you would like to see posted to this site, and what you think of this initiative.

## OHS publications available on the high resolution web page
